Docket No.: B173CIP1

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

APPLICANT(S): Thalia Papayannopoulou

SERIAL NO.: 08/436,339

FILED: July 13, 1995

FOR: PERIPHERALIZATION OF HEMATOPOIETIC STEM CELLS

GROUP ART UNIT: 1806

EXAMINER: Nancy A. Johnson

96 OCT 30 5:03 PM

Assistant Commissioner for Patents
Washington, D.C. 20231

RESPONSE

Sir:

In an Office Action dated October 10, 1996, the Examiner has required restriction to one of the following inventions:

Group I: claims 1-14, drawn to a method of peripheralizing stem cells, classified in Class 424, subclass 144.1.

Group II: claims 15-18, drawn to a method of treating cancer, classified in Class 424, subclass 144.1.

Group III: claims 19-24, drawn to a method of treating AIDS, classified in Class 424, subclass 144.1.

Group IV: claims 25-28, drawn to a gene therapy method, classified in Class 424, subclass 93.1.

The Examiner has alleged that the methods of Groups I-IV differ in the method objectives, the method steps and parameters, and in the reagents used. Further, the Examiner alleges that the inventions are distinct for the "reasons given above" and have acquired a separate status in the art as shown by their different classification and recognized divergent subject matter and because the searches required for the groups are not co-extensive.

Applicants provisionally elect the claims of Group I with traverse. Applicants respectfully submit that restriction in this application is improper because the Examiner has failed to establish that the inventions are independent and distinct, as required by 35 U.S.C. § 121. Specifically, the Examiner has merely stated that the methods, steps, parameters and reagents used are different, without indicating a basis why the claims in Groups I-IV are independent and distinct. Therefore, applicants request that the restriction requirement be withdrawn.

Additionally, the Examiner has indicated that the application contains sequence disclosures which do not comply with the sequence rules. However, this application is the national stage of international application PCT/US93/11060 filed November 15, 1993. The present application entered the national stage under 35 U.S.C. § 371 on May 12, 1995. Upon filing in the U.S. receiving office, applicants submitted a CRF copy of the sequence listing, a paper copy of the sequence listing, and computer readable copies of the same. For the Examiner's convenience, applicants have attached hereto a copy of the PCT transmittal papers indicating that the C.F.R. and appropriate documentation related to the sequence listing were enclosed. Therefore, applicants do not believe that resubmission of the CRF copy of the sequence listing and related documentation is required. If these documents have been misplaced or separated from the Examiner's files, kindly contact the undersigned and duplicates will be provided.

Applicants respectfully request prompt and favorable action on the merits of this application.
